

TOMMY LA

Front-end Developer

(858) 214-8262 • tommyl.dmd@gmail.com • tommymla.com • linkedin.com/in/tommymla

I am a Front-End developer with a creative mindset and a continuous drive for personal and professional growth.

TECHNICAL SKILLS

- **Front-end Development:** Javascript, Typescript, React, HTML, CSS, Bootstrap, TailwindCSS
- **Back-end Development:** Node.js, MongoDB, MySQL, RESTful API
- **Testing/Deployment Suite:** Vite, Netlify, Heroku
- **Developer Tools:** Git, Babel, npm, yarn, Webpack, Fusion 360 (CAD)

EXPERIENCE

Front-end Developer, 2021 - 2023 @ Creative Arcades

- Build custom themes and enhanced front-end user experiences using Shopify's Liquid language
- Engaged in cross-functional collaboration to effectively implement and execute business requirements
- Implemented and resolved front-end issue to enhance website performance and ensure compatibility across various devices
- Complete task gathering requirements from stakeholders requiring minimal supervision
- Assisted in logistics, sales, and customer phone calls, providing a versatile contribution to business operations
- Managed the user interface (UI) of three online stores to ensure a consistent and appealing visual identity

Freelance Software Engineer, 2019 - Present @ Self-employed

- Craft bespoke Shopify websites, aligning perfectly with the individualized requirements and brand identity of a diverse clientele
- Maintain a track record of punctual project completion, enabling clients to initiate their e-commerce business without unnecessary delays
- Prioritize client contentment by fostering open and effective communication, consistently delivering on schedule, and providing ongoing support for sustained success

APPLICATIONS MANAGED

Front-end Developer, 2021 - 2023 @ LTLParts

- Lead e-commerce operations centered on Shopify, improving business efficiency and elevating the customer experience
- Amplify online visibility and engagement by optimizing traffic through social media organically
- Conduct extensive research and push development to introduce cutting-edge automotive parts
- Utilize Fusion 360 (CAD) to design custom products
- Manage an outsourced manufacturer relationship to produce designed products
- Handled order processing and shipping via third-party software Shipstation

EDUCATION

UC San Diego Extension | Software Engineering Certificate 2022
